Dear Elsbeth, Paul, Rose and Catherine,

Thank you so much for your invitation to walk on the fantastic new archilological trail. I loved the part when we were in the study and we were seeing what the precious artefacts were and I loved that the walk had instructions so we didn't go in the wrong field. The tremendous house that was fenced off was very interesting because you had said that it had three different levels. I learnt that archaeological finds are not boring and that's what I used to think! I now think I will come to the trail with my family, because I could show them around and tell them what I have learnt. I thought it was really fun doing the time line in the study and putting where the different people were and seeing where the lovely different artefacts were on the time line and who might have owned them. Under White Farm its self was awesome, fantastic, fun and gob smacking! I had a really lovely time, thank you for making the day so much fun.

Hope to see you again soon.

Love Charlotte
