## RE Progression Map

### Level Expected at the End of EYFS

We have aimed to select the Early Learning Goals that link most closely to RE curriculum guidance.

For more detail about linked subject progression within the EYFS Framework, please refer to [these documents](#).

#### Personal, Social and Emotional Development (Self-Confidence and Self-Awareness)

Children are confident to try new activities, and say why they like some activities more than others. They are confident to speak in a familiar group, will talk about their ideas, and will choose the resources they need for their chosen activities. They say when they do or don't need help.

#### Personal, Social and Emotional Development (Managing Feelings and Behaviour)

Children talk about how they and others show feelings, talk about their own and others' behaviour, and its consequences, and know that some behaviour is unacceptable. They work as part of a group or class, and understand and follow the rules. They adjust their behaviour to different situations, and take changes of routine in their stride.

#### Personal, Social and Emotional Development (Making Relationships)

Children play co-operatively, taking turns with others. They take account of one another's ideas about how to organise their activity. They show sensitivity to others' needs and feelings, and form positive relationships with adults and other children.

#### Understanding the World (People and Communities)

Children talk about events in their own lives and the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.

#### Understanding the World (The World)

Children know about similarities and differences in relation to places and objects.

### Government Guidance

Religious Education is not a statutory part of the National Curriculum but state-funded, local authority schools must provide a basic curriculum. Schools designated as having a religious character are free to make their own decisions in preparing their syllabuses.

'The curriculum for a maintained school must be a balanced and broadly based one which 'promotes the spiritual, moral, cultural, mental and physical development of pupils and of society, and prepares pupils for the opportunities, responsibilities and experiences of later life'. Section 279 (1) School Standards and Framework Act.

Breadth and depth can be achieved in RE, if the following are taken into account:

- RE should provide opportunities for pupils to develop positive attitudes and values and to reflect and relate their learning in RE to their own experience.
- Building on the statutory requirements, it is recommended that there should be a wide- ranging study of religion and belief across the key stages as a whole.
- Not all religions need to be studied at the same depth or in each key stage, but all that are studied should be studied in a way that is coherent and promotes progression.
- Pupils should have the opportunity to learn that there are those who do not hold religious beliefs and have their own philosophical perspectives, and subject matter should facilitate integration and promotion of shared values.
- The study of religion should be based on the legal requirements and provide an appropriate balance between and within Christianity, other principal religions and, where appropriate, other religious traditions and worldviews, across the key stages as a whole, making appropriate links with other parts of the curriculum and its cross-curricular dimensions.

## Areas to Cover in the Non-Statutory Guidance

---

Each Local Authority will have an agreed syllabus so it is important that RE subject leaders are aware of the agreed syllabus to allow for the correct coverage in their school.

These three areas should underpin the breadth of coverage of RE in schools:

- **SMSC**
- **Personal Growth and Development**
- **Community Cohesion**

### **Beliefs and teachings (from various religions)**

Understanding the key teachings of various religions.

### **Time to reflect and personal growth**

Showing an appreciation for how religion plays an important role in people's lives. Exploring identity and who we are.

### **Rituals, ceremonies and lifestyles (from various religions)**

Exploring the day-to-day lives and practices of various religions.

### **Values (in your own life and others' lives)**

Showing an appreciation for what people value and how it is an important aspect of their life. Making sense of right and wrong and choices we make.

### **How beliefs are expressed**

Understanding how books, scriptures, symbols, art and readings convey beliefs.

RE coverage should aim to:

- provoke challenging questions;
- encourage pupils to explore their own beliefs;
- enable pupils to build their sense of identity and belonging;
- teach pupils to develop respect for others;
- prompt pupils to consider their responsibilities.

## Intent

Our RE lessons are intended to offer a broad and rich RE curriculum to allow for coverage of the areas prescribed; to allow for a variety of ways to explore religions, their community and personal development and wellbeing. The lessons have an intention of providing a high quality, coherent and progressive experience of the subject, with scope for cross-curricular learning. Through each unit, children will know about and understand a range of religions and world views. They will be able to identify, investigate and respond to a variety of issues. SMSC, personal growth and community cohesion are featured throughout each non-statutory strand and are there to ensure opportunities for children to develop positive attitudes and values and to reflect on and relate their learning in RE to their own experiences. The intent is to make sure that children understand the relevance of RE in today's modern world and how it affects our lives. EYFS practitioners will make reference to the Derbyshire Agreed Syllabus – Understanding Christianity Resource pack. Cross curricular links are also planned to incorporate the content of the daily worship which is within the Roots & Fruits scheme. Further Support materials include Picture News which includes an emphasis on the EYFS resource specifically for this year group.

## Implementation

We have referred to specific RE lessons in Twinkl Planit and Twinkl Life lessons to offer a broad range of study for children studying RE. We have suggested specific series of lessons for each year group, which will offer structure and narrative but are no means to be used exclusively, rather to be used to support planning. In KS1, children begin to look at other religions, focusing on celebrations and rituals. In KS2, we offer a wider range of learning opportunities about the world's religions including deeper understanding of the origin of those religions and their key stories and teachings. Throughout both key stages, emphasis on personal growth and community cohesion is evident, allowing for personal development for the children from KS1 to the end of KS2. There are unit overviews available for each Twinkl Planit unit, which demonstrates where challenge and differentiation will show development of skills. As well as unit overviews, end of unit assessments are available to support teachers in making sure children have reached the intended outcomes. In the suggested Twinkl Life lessons, there is a unit overview, a journey record pack and additional resources to help the teacher support the progress of children's learning. An example of key words has been included to show the progression skills around the specific language involved in the children's learning, so teachers can assess their understanding and progress through vocabulary as well.

## Impact

We believe that the impact of using our Twinkl Planit and Twinkl Life lessons as the basis of your RE curriculum will be for children to have a better understanding of the religions that make up the UK landscape and how they can learn from and work alongside each other to create community cohesion. All children will be more informed about their position in the world, and the decisions they can make impacting their future. All children in school will be able to talk confidently about their wellbeing, moral and cultural development for the society in which they live. The RE curriculum will promote inquisitive minds, respect, tolerance and understanding for all those around them including themselves. Our suggested lessons enable high quality work to be produced and evidenced, showcasing a deep understanding of the main religions of the world, their community and their future. This evidence will be seen through using the correct vocabulary, explanations and respectful opinions, as well as cross-curricular evidence, for example religious and cultural art work, drama, craft and presentations. Impact will be seen by all teachers and children enjoying the experience of teaching and learning RE and understanding how it can help them in their future.
