

Information for parents of children in the EYFS year

In EYFS, PSHE is also an integral part of the topic work covered throughout the entire year. Many aspects of the Early Learning Goals are steered towards children's physical and emotional development and wellbeing. The PSHE curriculum in our EYFS incorporates the new RSE requirements.

This includes teaching the children what being a good friend consists of, how to share and take turns, being kind, how we have changed since we were babies. These aspects are the foundation of our PSHE sessions, but can also be referred to, highlighted and role-modelled within other areas of the EYFS curriculum when appropriate.

What will my child actually be taught about puberty and human reproduction?

Ages 3-5 Growing up: how we have changed since we were babies.

Children will be taught appropriate to their age and developmental stage, building on units within the EYFS curriculum. Please note: at no point will a child be taught something that is inappropriate; and if a question from a child arises and the teacher feels it would be inappropriate to answer, (for example, because of its mature or explicit nature), the child will be encouraged to ask his/her parents or carers at home. The question will not be answered to the child or class if it is outside the remit of that year group's programme.

The EYFS curriculum supports children coping positively with change. All sessions are taught using child-friendly language and diagrams appropriate to their age and developmental stage.

Please click on the links below to access some of the power points used to help EYFS children understand this part of the curriculum.
